

Shirin Abdollahzadeh

Frontend Developer

Phone: [+98 911 508 7105](tel:+989115087105) | Email: shiringohariii@gmail.com | Github: [ShirinAbdz](#) | LinkedIn: [Shirin Abdollahzadeh](#)

SUMMARY

Aspiring Frontend Developer with a robust foundation in modern web technologies and a passion for creating intuitive user experiences, particularly in fintech and personal branding websites. Eager to apply my knowledge and fresh perspectives to practical challenges. Committed to continuous learning and growth, I bring enthusiasm and determination to contribute to a dynamic team.

SKILLS

Languages: JavaScript, TypeScript

Libraries and Frameworks: React.js, Redux, Next.js

Testing: Jest

Styling Tools/Technologies: Bootstrap, Tailwind CSS, Sass, Material-UI

Tools: Git, Figma

PROJECTS

[CRYPTO CHAIN](#) | [GITHUB LINK](#): Cryptocurrency Analysis Platform

- Developed a responsive crypto analysis platform using **React.js** and **Tailwind CSS**.
- Implemented pagination to display live data for 300 cryptocurrencies, including prices, market caps, and trading volumes.
- Integrated with the **CoinGecko API's** search endpoint.

[PERSONAL WEBSITE](#) | [GITHUB LINK](#)

- Designed a responsive personal website with interactive tabs to improve navigation.
- Integrated a filterable portfolio using the **MixItUp** library.
- Demonstrated proficiency in **HTML**, **CSS**, and **JavaScript** using **Flexbox** Layout.

[TWITTER CLONE](#) | [GITHUB LINK](#) (work in progress)

- Developed a cutting-edge user interface using Next.js and React; integrated lazy loading techniques and minimized server requests to boost the site's overall performance.
- Managed global application state, ensuring efficient data flow with **Redux**.
- Utilized **Material-UI** components and **Tailwind CSS** for rapid styling and customization.
- Implemented a robust CSS styling solution using **JavaScript**, to dynamically adjust layout based on **props**.
- Enhanced performance and **SEO** using **Next.js** features like **SSR** and **SSG**.

EDUCATION

Bachelor's Degree in Software Engineering

2019-09 to 2023-03

- From Guilan University

ADDITIONAL

Languages: Fluent in English, Basic knowledge of German and Turkish
